

Upasana Pandey

Architecture Student

I am seeing a place for Masters to maximize my knowledge in all aspects of architectural design. I would like to take this as an opportunity and as a platform to learn the design process and how it is being translated into reality sensitivity. I would like to study with utmost professionalism, dedication and try to become an asset to the institute.

PROJECTS

Thesis on Ram Ramayana Museum, Ayodhya (01/2020 - 06/2020)

- An attempt to create a secular and humanitarian building that shares a common space and uplifts the importance of humanity, breaking all the myths of religion. I went to VIRASAT E KHALSA, PUNJAB and NATIONAL MUSEUM, NEW DELHI to study and acknowledge the architectural features.

ANDC (National Association of Students of Architecture), India (2016)

- The site was an under bridge slum area, the main purpose of choosing the slum area was to create a clean, habitat space for the people. Not only we did achieved satisfaction by this project, but we were proud of pursuing architecture. A platform to turn one's dream life.
